LOS ANGELES CAST STONE - CASTING YOUR IMAGINATION

Los Angeles Cast Stone started its operations in Los Angeles, California. We install architectural precast, cast stone and GFRG (Glass Fiber Reinforced Concrete) since 2001. We strive for excellence in our projects and take all type of jobs seriously. Our in-house designers will meet you to understand your needs and provide a complete design support. Customer satisfaction is a priority for us, and it is our pleasure to provide premium quality cast stone, precast or GFRG products. They will spare no effort to provide accurate and precise installation of precast/cast stone or GFRG products. Cast stone, precast and GFRG architectural products selection is very wide at Los Angeles Cast Stone. We have hundreds of moldings, which enable you to have a wide menu of options. Our products range from columns, balustrades, veneers, window moldings and sills, crown molds and many more precast, cast stone and GFRG products. Cast stone, GFRG and architectural precast adds significant value to your project, whether it is commercial or residential project, or investment property, cast stone products add value to your property and it is considered a significant value investment.

Los Angeles Cast Stone has a wide selection of cast stone, GFRG. Our cast stone products are not limited with custom cast stone or custom precast products; we have a wide variety of standard cast stone products too. We also cast ship orders across continental USA, especially in states with major cast stone projects: Arizona, Nevada and Texas.
